# Don't Forget The BIG AUCTION SALE Bulloch County Lands WEDNESDAY, DEC. 12, 1917, AT SHEARWOOD, GA.

3,283 Acres will be divided into 28 tracts, each containing from 50 to 229 acres. This land will positively be sold to the highest bidder—one-fifth cash—balance in one, two, three, four and five years at six per cent. Don't miss this opportunity.

## Chas. E. Cone Realty Company

The Department of Agriculture Washington, D. C., Endorses the Use of Raw Ground Phosphate in Making a Compost Heap.

Farmers in the South often overlook the fact that valuable fertilizing materials are available at their very doors, and are to be had at a nominal expense and a slight amount of labor.

To quote from Bulletin No. "A-77," Department of Agriculture: "It should be remembered that any thing of vegetable or animal origin has value as a fertilizer if put in proper condition. The compost heap is one means of doing this. One ton of leaves contains 15 pounds of nitrogen, 3.2 pounds of phosphoric acid, 6 lbs. of potash and at ordinary values of these substances is worth nearly \$3.50. Straw, similarly is worth about \$3.00 per ton. These values are based on their total percentages of fertilizing constituents. In actual practice it is safe to assume that half of these values are realized. The materials have undergone decomposition."

"Locate the compost heap in an old shed, or build a shed with any kind of cheap material for a roof. Spread on the ground a layer of stable manure, at least 8x10 feet, 6 inches deep. Over this spread 100 pounds of acid phosphate or ground potash rock. The phosphate rock answers as well as the acid phosphate."

"Continue these alternate layers until the manure is used up or until the pile has become inconveniently high. To the layers might be added straw, leaves, mold or other litter, adding 100 lbs. of ground phosphate rock to each ton of material to be used. Be sure to wet all thoroughly. When the compost heap is completed, cover it about four inches deep with good loam or forest mold."

In saving manures for composting or for direct spreading in the field, it is a good idea to keep finely ground phosphate on hand, and scatter a few pounds in the stall litter or bedding animals. The phosphate absorbs a large portion of the liquid, prevents fermentation of nitrogen, and the availability of the phosphate is greatly assisted.

Manure or compost treated with finely ground phosphate will not become a breeding place for flies; the barn where this treatment is followed will be found practically free of these pests and disease carriers.

The compost should be kept moist to prevent the loss of nitrogen as ammonia, and should be allowed to thoroughly cure before using. If larger percentages of phosphoric acid is required, increase the quantity of ground phosphate to be used.

When applying two tons to the acre or less, the best results can be obtained by putting the compost in the furrow and bedding out to it. Be careful not to bury too deep, especially on clay soils. When using more than two tons to the acre, it is better to scatter broadcast.

The compost should be thoroughly mixed before applying to the soil. In addition to the actual fertilizing value of manure or properly prepared compost, its use improves the texture of the soil, increases the moisture holding capacity, aids the growth of plants, provides organic matter or humus, which is the life of the soil.

It is safe to say that by using compost, supplemented with cowpung, veal, or other legumes, at least fifty per cent can be added to the soil at the cost of a few tons of PHOSPHATE and a little labor.

President Neilson was exchanged professor from Harvard to the University of Paris in 1914 at the time of the outbreak of the war.

"What I have to say," he told the students, "I offer not as the evidence of an expert, but as the result of personal observation during many visits to Germany during the past twelve years, and especially during the first year of the war. They tend to make me believe that however we may lament the acquiescence of the German government, that acquiescence can be explained without supposing that a nation hitherto endowed with many fine qualities has suddenly become a horde of criminal barbarians. Some of the facts supporting this view may be summarized thus:

"For a generation education in Germany has been directed to magnify Germany's claim to play a great part in the world. While history and geography have been so taught as to create the belief that other nations have unfairly monopolized the means of expansion and so deprived her of her chance.

"Recent political history has been

## GERMAN VICTORY AN UNSPEAKABLE CALAMITY

SO SAYS PRESIDENT NEILSON OF SMITH COLLEGE IN ADDRESS TO STUDENT BODY.

Northampton, Mass., Dec. 5.—Victory is to be gained, not by denying all virtue to Germany and so underestimating her power, but by surpassing her in her characteristic points of strength and keeping ourselves free from the faults that have lost her the friendship of the world, said President William Allen Neilson of Smith College, speaking tonight to the student body.

"The effectiveness of the German army and the behavior of the German people," he said, "is sufficient proof that there can be no such complete rottenness at the heart of the nation as some of us believe. Nothing is to be gained by shutting our eyes to the formidable vigor of the enemy we have set out to defeat. Only a candid facing of the facts and an unshaken determination to win on the facts can save the world from the unspeakable calamity of a German victory."

W. O. SHUPTRINE

ENDORSED AT HOME.

Such Proof as This Should Convince Any Statesboro Citizen.

The public endorsement of a local citizen is the best proof that can be produced. None better, none stronger, can be had. When a man comes forward and testifies to his fellow citizens, addresses his friends and neighbors, you may be sure he is thoroughly convinced or he would not do so. Telling one's experience when one is for the public good is an act of kindness that should be appreciated. The following statement given by a resident of Statesboro adds one to the many cases of home endorsement which are being published about Don's Kidney Pills. Read it.

S. F. Olliff, merchant, Statesboro, says, "I can conscientiously recommend Don's Kidney Pills to others, who may be in need of a kidney medicine. I have given them a thorough trial and they have done me more good than anything else I have ever taken for kidney trouble."

Price 60c at all dealers. Don't simply ask for a kidney remedy. Get Don's Kidney Pills—the same that Mr. Olliff had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## HOMELESS NUMBER 25,000 AT HALIFAX

THIRD BLIZZARD WITHIN THE PAST WEEK HAS ADDED TO SUFFERING OF PEOPLE.

Halifax, N. S., Dec. 10.—Figures officially given out tonight of the casualties in the munitions explosion disaster in this city follow:

Known dead, 1,200; identified, 940; unaccounted for, 1,920; wounded, 6,400; homeless, 25,000.

A roaring blizzard, the third to hit this sorely affected city since the disaster, laid the ice-shouldered rains the fury for which these northern winter storms are noted, it all but crushed the hearts of the brave band of workers struggling against overwhelming odds to alleviate suffering.

For a while the contingents of the Canadian army stationed here tolled doggedly amid the ice-shouldered rains for the unrecovered dead, but when the wind veered suddenly to the southeast and blew with redoubled force, the soldiers were obliged to withdraw. Punga bearing hospital supplies and food to the numerous relief stations were stormbound. The crippled light system broke down, again leaving the city in darkness.

Burial parties had volunteered their services when the medical authorities announced that the recovered dead must be disposed of at once, that epidemic might be averted, were driven to cover. From the devastated areas of two and a half square miles hundreds of men and women patients seeking their dead, gave up their task.

Relief trains bringing workers and supplies reached the city in the height of the blizzard, but those so eager to help found themselves helpless and knew not which way to turn in the darkness of the storm, the unlighted city and the wreck of familiar landmarks.

In tents, barracks, private homes and public buildings the homeless have been given shelter. Reports from the 6,000 wounded stated that, for them at least, the storm brought no added danger so well they have been provided for.

So serious is the problem of housing and feeding those already in the city that a strict embargo was issued tonight against the admission of all persons not connected with the relief or reconstruction work. Military guards were detailed to stop newcomers at Truro. Among the first to feel this stringent but necessary stop were many Americans who were halted at St. John.

The citizens and the authorities generally recognize that the multitude of visitors who have been flooding in since railway communication was re-established are moved by the best of intentions. The city appreciates their generous desire to help, but there is simply no accommodation for them. In a community of 65,000 inhabitants 25,000 have been made suddenly homeless. These must be provided for, as well as the army of workmen needed to clear away the debris and rebuild the city.

ANOTHER SHIP AFIRE  
IN HALIFAX HARBOR

CREW DESERTED THE BURNING SHIP AND HEROIC CITIZENS SAVED THE CITY.

Halifax, Dec. 11.—With complete disregard for their own lives, in an effort to save this desolated city from another catastrophe, a group of Dartmouth citizens early today boarded a steamship, said to have been laden with munitions, which was afire and was being abandoned hastily by her crew.

The vessel carried a deckload of oil, and as she came in close to the shore with smoke pouring from her superstructure, the sight of her flaming crew stirred the watchers ashore to prompt action. A volunteer fighting force was quickly organized and the burning ship was boarded. After hard work the flames were extinguished.

Since the explosion of the Mont Blanc here last Thursday morning, the efforts of the volunteer force reported to be unwilling to enter Halifax harbor.

According to statements obtained

today from survivors of the Norwegian steamer Imo, which collided with the Mont Blanc, the latter ship was no red flag to indicate that she carried a cargo of explosives. They also declared that they were not aware that the Mont Blanc was munition laden, and that when they saw her crew running away they thought it was due to the fire and not fear of an explosion. They asserted the Mont Blanc was coming into the harbor on the wrong side when the collision occurred.

Hope was abandoned today for sixty men who were loading provisions on the steamer Picton at the Arctida Sugar Refinery at the time of the disaster. As the shock came, the pier to which the ship was moored collapsed, a mass of wreckage. It is believed the sixty men were buried in the ruins.

GERMANS STATE TERMS  
OF PEACE WITH RUSSIA

DEMAND CONTROL OF RUSSIAN WHEAT MARKET FOR NEXT FIFTEEN YEARS.

London, Dec. 10.—The Petrograd correspondent of the Times attributes to a responsible source the statement that during the informal conversations between the Russian and German representatives at Brest-Litovsk regarding the armistice on the eastern front, the Germans indicated that the following points were likely to be included in any of their peace negotiations:

"Germany to have control of the Russian wheat market for fifteen years.

"All German goods to be admitted to Russian duty free.

"No territory now occupied by the Germans to be surrendered."

The correspondent says the Bolsheviks were disappointed by the reserved attitude of the German negotiators and their lack of sympathy with political idealism. Other causes contributed to their depression, but it is stated they are determined to conclude an armistice at any cost if the latest appeal by the Russian commissioners to the allies fails.

LOWNDEN COUNTY RAILROAD  
ESCAPED TAXES FOR YEARS

Valdosta, Ga., Dec. 11.—It seems rather remarkable that for a period of several years railroad property extending over a distance of eight miles should fail to appear on the tax books of a county. It has just been discovered that the Milltown Air Line railroad, which was built by the Georgia Railway and Power Co., and which runs from Valdosta to the Georgia coast, has been operating for several years without paying taxes on this amount of its property.

Since the omission was discovered by the county auditor, the state comptroller and finally the matter has been properly entered and the railroad company will pay its taxes to Lowndes county for this year, as well as for a period of years previous to this one. A large amount has been found not on the digest in this county and the county will receive this year several thousand dollars in taxes on property not heretofore paying its share of the expense of government.

FIGURES INDICATE IMMENSE  
EXPORTS OF FOODSTUFFS

For Total Month Ending in October, Total Was \$1,082,244,046.

Washington, Dec. 11.—Exports of foodstuffs from the United States for the ten months ending in October totaled \$1,082,244,046. It was shown by figures announced today by the Bureau of Foreign and Domestic Commerce. For the same period last year the total was \$855,943,176. Exports of foodstuffs in October of this year exceeded \$98,000,000.

Sales of manufactured goods in foreign countries amounted to \$3,362,844,981 for the ten months of 1917, compared with \$2,909,856,000 for the same period of 1916. The greatest increase was in the exports of manufactures for further use in manufacturing, which reached a total of \$1,071,066,111 against \$732,610,629 in the ten months last year.

Imports for the ten months were valued at \$2,504,083,900, against \$2,009,835,398 in the ten months period ending in 1916. Foodstuffs imported this year totaled \$684,626,767, as against \$484,626,767 in the same period last year.

BOSSCHE'S GERMAN SYRUP  
WHEN BOSSCHE'S GERMAN SYRUP  
has been used successfully for fifty years in all parts of the United States, it is not surprising that it is now being used in the morning, giving nature a chance to soothe the stomach, and in the evening, helping the patient to regain his health. 50 and 75 cent bottles. Sold by Bulloch Drug Co.

## NEGROES ARE HANGED FOR TEXAS RIOT

THIRTEEN PAY DEATH PENALTY FOR MUTINY AT HOUSTON ON AUGUST 23.

San Antonio, Texas, Dec. 11.—Thirteen of the negroes of the 24th Infantry, U. S. A., found guilty of complicity in the riot and mutiny at Houston on August 23, were hanged on the military reservation at Fort Sam Houston at 7:17 o'clock this morning. Announcement of the carrying out of the sentence was made at headquarters of the Southern department at 9 a. m.

Only army officers and Sheriff John Tobin of Bexar county were present when the sentence was executed by soldiers from the post. No newspaper men or civilian spectators were allowed, the time and place of execution having been kept a secret.

Of the sixty-three men tried by the same court martial, forty-one were sentenced to life imprisonment. One man was sentenced to dishonorable discharge from the army, forfeiture of all pay and allowances, and was confined at hard labor for two and a half years. Three were sentenced to be dishonorably discharged from the army, forfeit all pay and allowances and be confined at hard labor for two years. Five were acquitted.

The negro soldiers who paid the death penalty were:

Sergeant William C. Nesbitt, Corporal Larnon J. Brown, J. A. Wheatley, Jesse Moore and Charles W. Baltimore; Privates William Brackenridge, Thomas Hawkins, John Snodgrass, I. B. Davis, James D. Dismas, W. Young, Frank Johnson, and Pat McWhorter.

Following the hanging of the thirteen the chief of staff of the Southern department gave out a written statement, at the same time refusing to answer any questions.

WHISKY SMUGGLERS KILL  
MAN NEAR DOUGLAS

TOM WESLEY MET DEATH IN AN ATTEMPT TO PULL A STUNT WITHOUT AUTHORITY.

Douglas, Ga., Dec. 9.—This morning about 8 o'clock on the Dixie Highway, between Douglas and Douglas, near Chatterbox, Tom Wesley, a young white man of Douglas about 20 years old, was killed by two unknown parties en route from Jacksonville to some point in Georgia. James Staveland, who accompanied him, was shot through the clothing on the breast, but was not injured.

Staveland returned to Douglas and got the sheriff and a posse who returned to the scene and brought Wesley's corpse in to the Douglas Undertaking Company.

The parties who did the killing broke the state license tag off the Ford they were driving, and used the machine, which contained some fifty to a hundred bottles of whisky. The sheriff seized the automobile and whisky, but the guilty parties escaped and the sheriff is now trying to trace their identity.

The best information obtained is that James Staveland must have anticipated that these parties were coming from Jacksonville with whisky, and he with Wesley went out on the road to capture them and take their whisky. He found their car broke down and Staveland, being an invalid, when he reached the scene, gave the pistol to Wesley, who got out and undertook to capture the parties. They resisted. After beating Wesley over the head took the pistol from him and shot him one time, producing instant death. They escaped with the pistol.

Neither Staveland nor Wesley were officers, nor did any of the officers of the city or county know anything about it until after Wesley had been killed and Staveland reported to the sheriff.

GOVERNOR DORSEY TAKES UP  
VERY BAD MUDDLE

GOING TO WASHINGTON TO TRY TO STRAIGHTEN OUT EXPERIMENTATION AFFAIRS.

Atlanta, Dec. 8.—Governor Dorsey will leave Atlanta Tuesday night for Washington for the purpose of trying personally and officially to untangle the situation which has tied up the state experiment station near Griffin in the matter of money since last July.

Secretary of Agriculture Houston, it will be recalled, since that time has withheld the government appropriation for work at the experiment station, on the ground that the state law is not complying with the federal law in the operation of the station, and never has.

A couple of months ago a delegation from the board of trustees of the station and the state college went to Washington to get the tangle straightened out, and the information came back from Washington that an arrangement had been made with Mr. Houston whereby the money was to be released until the next session of the legislature, with the understanding that the trouble would be corrected. Subsequently it became known that Mr. Houston had made no such arrangement, and, as a matter of fact, the maintenance fund from the government has not been forthcoming and is not now.

A joint session of the two boards of trustees a short time ago requested Governor Dorsey to handle the matter himself, and to that end he is going to see Secretary Houston and will be aided by the Georgia congressmen.

The position taken in Washington, and of which the state has been officially informed, is that every cent of money the station has ever drawn from the government has been paid out illegally, and it is said to cover some twenty years or more—and that no more money will be paid until the government requirements are complied with. The federal department has, furthermore, given notice that the proposed bill, as drawn by the trustees for passage by the legislature as a corrective measure, will not meet the governmental requirements, if passed, and will not be satisfactory to the government.

Governor Dorsey's visit will be with a view to getting in shape exactly what is necessary to meet the government requirements in respect to the station, with an understanding that it will be enacted by the legislature promptly, when it meets next June, and on that to induce Secretary Houston to release the funds which have been held up since last July.

It is a fact that the situation in respect to the station has been presented to the legislature at least twice already, in the message by Governor Harris and subsequently in Governor Dorsey's message, and in both of them it was stated that the conflict would have to be corrected or the government would withdraw the funds.

Definite information is that if Secretary Houston does not agree to release the money being held up in Washington, the experiment station cannot continue to operate. It will have to close down and the corps of experts there will be scattered.

There is said to be no question of the fact that the legislature will pass such a bill as Secretary Houston says is necessary to meet the requirements and the one question, therefore, is whether or not Mr. Houston is going to agree to release the funds for the interval between this time and the meeting of the legislature on that assurance.

SHEEP FOR THE SOUTH  
FROM WESTERN PLAINS

OPEN LANDS OF THE SOUTHERN STATES ATTRACT EYE OF SHEEP RAISERS.

New Orleans, Dec. 8.—Possibilities for the transfer of immense flocks of sheep from Western ranges to the cut-over and timbered pine lands of the South were discussed at a conference held here today at the offices of the Southern Pine Association between members of a committee of the National Wool Growers Association, land owners and government

representatives. Questions of legislation, forage and health affecting sheep raising in the South were debated for several hours, after which the wool growers announced they would visit various sections of the cut-over land area and report the result of the observations to the annual conventions of the National Wool Growers Association and the National Live Stock Association.

John Edgill of Salt Lake City, chairman of the Wool Growers Committee, stated the sheep raisers, restricted by the recent homesteading of the public domain in the West, were looking to the South as having the only remaining suitable grazing lands available in sufficient volume.

With the slogan "make it a Red Cross Christmas," efforts will be made to add 10,000,000 new members to the 6,000,000 now in the organization. Only one week has been allotted to the extensive drive. This is the first organized effort of the Red Cross to enroll new members since the war started.

The president's appeal is as follows: "To the People of the United States: "Ten million Americans are invited to join the American Red Cross during the week ending with Christmas Eve. The time requires that every branch of our great national effort shall be loyally upheld and it is particularly fitting that at Christmas season the Red Cross should be the branch through which your willingness to help is expressed.

"You should join the American Red Cross because it alone can carry the pledges of Christmas good will to those who are bearing for us the real burdens of the world war both in our army and navy and in the nations upon whose territory the issues of the world war are being fought out. Your evidence of faith in this work is necessary for their heartening and cheer.

"You should join the Red Cross because this arm of the national service is steadily and efficiently maintaining the overseas relief in every suffering land, administering over millions wisely and well and awakening the gratitude of every people. Our conscience will not let us enjoy the Christmas season if this pledge of support to our cause and the world's need is left unfulfilled. Red Cross membership is the Christmas spirit in terms of action.

(Signed)  
"WOODROW WILSON,  
President of American Red Cross."

CONGRESSMEN FAVOR  
STATEMENT OF ALLIES

BELIEVE THEY SHOULD MAKE THEIR AIMS CLEAR AS PRESIDENT WILSON HAS OURS.

Washington, Dec. 8.—Congress is progressively more in favor of an allied revelation of war aims, similar to President Wilson's message.

Many members hold frankly that all belligerent peoples ought to be in the government's confidence, especially as the people pay the war costs.

"It is now up to Great Britain and France to declare clearly their war aims, said President Wilson has defined the United States' objectives," said Chairman Flood of the house foreign committee. "A common understanding of the basis on a possible peace might well hasten the end of the war."

Echoing similar sentiments, Senator Curtis, Kansas, Republican whip, added:

"I certainly favor a re-statement of war aims by the allies. The time has come when all the belligerent peoples must be taken into the confidence of their governments, for as they have to pay the price of the war, they've got to know what the price is for."

"This is a very opportune time," said Senator Overman, North Carolina, for a re-statement of war aims by all allies. Their war aims should be placed before the world with great clearness, just as ours were by President Wilson in his message to congress."

I am now local representative for a number of the leading magazines, the Ladies Home Journal, Woman's Home Companion, Literary Digest, etc., the periodicals formerly represented by Mrs. A. K. McMonroe. I will thank my friends and the public for their subscriptions.

CHANGES A SOLDIER  
HAS IN BATTLE

MILITARY HOSPITALS COMMISSION OF QUEBEC COMPLETES SOME INTERESTING FACTS.

The military hospitals commission at Quebec has kept an account of how Canadian troops fared in the war and has compiled some interesting statistics based on its investigations and observations.

Addressing Canadian mothers and fathers, the commission says:

If your boy goes to the front—He has 29 chances of coming home to one chance against.

He has 98 chances of recovering from wounds to two chances of dying. He has only one chance in 500 of losing a limb.

He will live five years longer because of physical training.

He has better medical care at the front than at home.

In other wars from 10 to 15 men died from disease to one from bullets; in this war one man dies from disease to every ten from bullets. This war is less wasteful of life than any other in history.

Only ten per cent of all Canadians disabled for further service have been physically unable to engage in their former occupations.

If your boy is one of the ten per cent, the government will re-educate him in another vocation at which he can earn a living.

This doesn't mean that war is a danger-free occupation and that life in the trenches is as comfortable as the easy chair at home, but it does make it appear less fearsome than has been painted over here, especially by pro-German Socialists, dialysis pacifists and German-born traitors in America.

PRICE OF COTTON SEED  
MEAL FIXED IN ATLANTA

ACTION OF CRUSHERS WILL BE A SAYING OF MILLION AND A HALF DOLLARS TO FARMERS.

Atlanta, Ga., Dec. 12.—More than a million and a half dollars will be saved to the farmers of Alabama and Georgia, it is said, by the action of the cotton seed crushers of the two states, 200 in number, who met at the chamber of commerce assembly hall today. They adopted a resolution fixing the price of cotton seed meal at \$47.50 a ton, providing the meal contains no more than 36 per cent protein.

This price applies to lots of thirty tons or more. For each additional per cent of protein in the meal, an additional dollar per ton will be charged.

Dr. A. M. Soule, federal food administrator for Georgia; Major D. F. McClatchey, executive secretary for the food administration of Georgia; and H. M. Hobble of Montgomery, federal food administrator for Alabama, were present. The crushers voluntarily adopted the recommendations of the administrators.

This price applies to lots of thirty tons or more. For each additional per cent of protein in the meal, an additional dollar per ton will be charged.

There is said to be no question of the fact that the legislature will pass such a bill as Secretary Houston says is necessary to meet the requirements

#### COUNTY SCHOOL NOTES.

Tyson Grove school is on a boom. They have employed three teachers where they have never before had to use but two. It looks as if this will be a record-breaker for the Tyson Grove. The school is under the management of Prof. L. D. Rushing and Misses Andrews and Harville. Watch the Tyson Grove school grow.

There are about six schools that have not as yet secured teachers. About eight vacancies for assistant teachers and then we will be going in full force. Let every school be ready to begin the first of January by all means. That will be late enough.

The Bird school is making fine progress under the management of Miss Selma McElveen and Miss Meta Kennedy. They have an enrollment of 51 with prospects bright for better attendance soon. This is one of the best schools of this county.

Clito has the county record when it comes to raising money the box supper route. On the night of Dec. 11th, they were able to raise the neat sum of one hundred and eighty dollars and forty-four cents, which will finish paying for their piano and other debts and leaves them with money in the treasury. They propose to qualify as state standard school this term. If they do, they will be the first in the county to thus qualify. The school is being taught by Prof. T. D. Ervin and Misses Cobb and McCroan. They are expecting to add another teacher after Christmas. Watch the Clito school grow. It is in the hands of the proper management. We are proud of the Clito school.

The box supper at the Bragg school was a success. They raised about \$40 with which to add equipment, etc. This school is being taught by Miss Mary Broadrick, who is doing excellent work there.

Register high school building will soon be ready for occupancy. They will have what but few towns its size can boast when this new building is completed. Bully for Register.

It begins to look as if the East school district will really have a new school house after so many years of effort. They have secured the deed and are now in shape to go right on and do the work. Let us get busy and push the building right through to a finish. It will be the best asset of the whole community.

Prof. Tobias Huffaker and daughter are teaching the Pauline high school. They expect to add the third teacher in a few days. Prof. Huffaker taught the Bradwell school about eight years ago. We are glad to have him with us again.

Hon. M. L. Dugan will deliver a literary address at Clito school on the night of Dec. 21st. There will be an appropriate musical program on that occasion. Go out and hear this distinguished educator. You will be treated to one of the best lectures.

#### NO BANK FOR HIM—

"I don't put my money in any bank," said Slothful Sam. "My inside pocket is good enough for me and I am going to keep it there instead of letting the other fellow carry it."

But does he keep it there? He does not. The butcher, baker, grocer, clothier and druggist get Sam's money and they put it in the bank. Sam don't know where his money goes. But somebody puts it in the bank. Who is putting your money in the bank? If it is good for the other fellow to have money in the bank it's good for you—and the other fellow gets rich at it.

BANK OF STATESBORO  
Statesboro, Georgia

## FERTILIZERS USED TO INCREASE PRODUCTION

Must Increase Yield Per Acre To Meet Demands.

The annual demand for agricultural products means that either the area of land devoted to cultivation must be increased, or that larger yields must be obtained from the land now under cultivation. Since our labor supply is being diminished, it seems hardly practical to increase our agricultural production by increasing the area of land, but to increase our production by increasing the yields per acre of land now in cultivation.

This can be done most economically by the better preparation of the soil before planting and more thorough cultivation after the crops have begun growing. This will keep the soil in a physical condition favorable for the growing of crops. Grow the crops in a systematic rotation that does not permit the same crop in the same field two years in succession. Grow legumes, such as vetch, beans, cowpeas, soy beans, vetch and crimson clover wherever possible in the rotations. The legumes will increase the nitrogen supply of the soil, and maintain the organic content. In addition to the foregoing practices, use commercial fertilizers and lime. The results obtained on fertilizer plots located in many different counties in the State, show that the soil type determines, to a larger extent, the kind of fertilizer that is most profitable.

#### HOW TO PREVENT CROUP.

In a child that is subject to attacks of croup, the first indication of the disease is hoarseness. Give Chamberlain's Cough Remedy as soon as the child becomes hoarse and the attack may be ward off and all danger and anxiety avoided.

#### "WIN THE WAR FIRST, THEN PROHIBITION"

Washington, D. C., Dec. 8.—"Win the war first, then prohibition," is the slogan of the Women's Christian Temperance Union delegates carried when they left for their homes at the close of their annual convention. Steps were taken to learn whether the American soldiers in France are being supplied with pure water and endeavor will be made to prevent them from being given a wine or beer ration. The convention opposed sending cigarettes and tobacco to the soldiers, but decided to make no protest to the war department because tobacco is not an official ration. Intensive campaigns for prohibition in Florida, California, Ohio, Nevada and New York during 1918 were determined upon in an effort to aid ratification of the federal amendment when passed.

We want 1,000 bushels of good ear corn in bulk for occupancy. E. A. SMITH GRAIN CO. (6dec13)

#### THRICE-A-WEEK EDITION OF NEW YORK WORLD IN 1918

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low price. The value and need of a newspaper in the household was never greater than at the present time. We have been forced to enter the great world war, and a large army of ours is already in France. You will want to have all the news from our troops and European battlefields, and 1918 promises to be the most momentous year in the history of our universe. No other newspaper at so small a price will furnish such prompt and accurate news of these world-shaking events. It is not necessary to say more.

The THRICE-A-WEEK WORLD'S regular subscription price is only \$1 per year, and this pays for 156 papers. We offer this unequalled newspaper and the BULLOCH TIMES AND STATESBORO NEWS together for one year for \$2. Send subscriptions direct to this office. (6dec13)

#### STOCKHOLDERS' MEETING.

The annual meeting of the stockholders of the Bank of Statesboro will be held at its banking house on Tuesday, December 18th, 1917, at 10 o'clock a. m. for the purpose of electing a board of directors and transacting such other business as may come before said meeting.

S. C. GROOVER, Cashier. (6dec13)

Notice to Debtors and Creditors. All persons having claims against the estate of Mrs. Annie E. Ford, late of said county, deceased, will please present at once to J. A. Brannen, executor on said estate; and all persons owing said estate are required to make payment at once.

This December 8, 1917. J. A. BRANNEN, Executor on the estate of Mrs. Annie E. Ford. (13dec6)

WARNING. All persons are warned not to hunt, fish or otherwise trespass upon the lands of the undersigned. We desire to protect our birds for the little good they may do in the war against the coming boll weevil, and we caution trespassers that hunting will not be tolerated.

M. M. DONALDSON, W. E. WIDOWSKY, Mrs. RHODA AKINS, J. C. ROACH, W. H. AKINS. (22nov4)

MONEY MONEY MONEY TO LOAN ON CITY PROPERTY IN ANY TOWN IN THE COUNTY. Will practice in all the courts, both State and Federal. Collections a Specialty. CHARLES FIGUE. First National Bank Building Rooms 4, 5 and 6.

Buying Good Furniture and Rugs is economical—buy "Life-time Furniture"

Make this store your home while in town, we will exert every effort to keep you warm and comfortable

Brooks Simmons Co.

## You Can Shake Loose from The Tortures of Rheumatism

By using S. S. S. The germs of Rheumatism are in the blood, which is laden with millions of the minute demons of pain, causing untold suffering and bringing its victim from vigor and strength to almost helplessness. To get real and genuine relief from this disease, these disease germs must be completely routed out of the system through the blood.

S. S. S. has been used for fifty years with satisfactory results in the treatment of Rheumatism. It acts directly upon the blood, which it promptly purifies of all disease germs. It is a powerful antiseptic, and eliminates from the blood all traces of rheumatic germs, building up and strengthening the run-down system.

Write to-day to our medical director, who will give you valuable advice regarding the proper treatment of your own case. Address Swift Specific Co., Dept. 1 Atlanta, Ga.

And many have sent several times a dollar. Contributions have come from coast to coast and the fund is growing steadily.

To stimulate the flow of contributions, Pastor J. W. Ham decided that the congregation should spend a night on their knees in prayer.

READY NOW AT OLD PRICES. Fresh lots of Foley's Honey and Tar Compound are selling at before-the-war prices. This puts this well-known cough medicine, ready to use, in homes at less than it costs to buy and mix the ingredients yourself, and all bother and muss is avoided. There is no better remedy for coughs, colds, croup or laryngitis. Sold by Bulloch Drug Company.

## STOMACH TROUBLE

Mr. Marion Holcomb, of Nancy, Ky., says: "For quite a long while I suffered with stomach trouble. I would have pains and a heavy feeling after my meals, a most disagreeable taste in my mouth. If I ate anything with butter, oil or grease, I would spit it up. I began to have regular sick headache. I had used pills and tablets, but after a course of these, I would be constipated. It just seemed to tear my stomach all up. I found they were no good at all for my trouble. I heard

THEFORD'S BLACK-DRAUGHT recommended very highly, so began to use it. It cured me. I keep it in the house all the time. It is the best liver medicine made. I do not have sick headache or stomach trouble any more." Black-Draught acts on the jaded liver and helps it to do its important work of throwing out waste materials and poisons from the system. This medicine should be in every household for use in time of need. Get a package today. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c a package. All druggists.

ONE CENT A DOSE (17)

From your little friend, SARA ROCKER. Statesboro, Ga., R. F. D. 2, Box 82, Dec. 9, 1917.

Dear Santa Claus: I think you are very good to me, you brought me such nice presents last year.

This year I want you to bring me a big wagon and a big baby doll, and please don't forget my little sister. She wants a big wagon and a doll, too. Much love, MARY FORDHAM.

Statesboro, Ga., Dec. 13, 1917. My Dear Santa Claus:

I am a little girl and will be six years old tomorrow. I am asking you to please come to see me Christmas and bring me a doll, doll bed, little piano and a horn.

I will thank you so much. I've been a good little girl all this year. Lovingly, CARRIE EDNA FLANDERS.

Statesboro, Ga., Dec. 13, 1917. Dear Old Santa:

I want to ask you to please bring

Dear Santa Claus:

Please bring me a cowboy suit with a pistol and lots of pockets; also a little hat, a pistol cord, some shoes, a belt. From a pretty little boy, ELLREY HARFORD. Statesboro, Ga.

Portals, Ga., Nov. 20, 1917.

Dear Santa Claus: Please bring me a wagon and pistol with caps. I will be a good boy if you will, and study hard at school. A good little boy, ELWOOD GREEN.

Portals, Ga., Nov. 30, 1917.

Dear Santa Claus: I want you to bring me for Christmas? Two crepe de chine handkerchiefs, some apples, oranges, bananas, peaches, negro toes, walnuts and three boxes of sardines, malsia grapes, and one box of candy.

From your little friend, SARA ROCKER. Statesboro, Ga., R. F. D. 2, Box 82, Dec. 9, 1917.

Dear Santa Claus: I think you are very good to me, you brought me such nice presents last year.

This year I want you to bring me a big wagon and a big baby doll, and please don't forget my little sister. She wants a big wagon and a doll, too. Much love, MARY FORDHAM.

Statesboro, Ga., Dec. 13, 1917. My Dear Santa Claus:

I am a little girl and will be six years old tomorrow. I am asking you to please come to see me Christmas and bring me a doll, doll bed, little piano and a horn.

I will thank you so much. I've been a good little girl all this year. Lovingly, CARRIE EDNA FLANDERS.

Statesboro, Ga., Dec. 13, 1917. Dear Old Santa:

I want to ask you to please bring

me for Christmas a train with a track, dancing man, and a package of fire poppers. I am a little boy and am seven years old and go to a school. With many thanks, F. C. PARKER, JR.

Statesboro, Ga., Dec. 13, 1917. Dear Santa Claus:

Will you please bring me a big doll, doll carriage and a package of fire poppers. I am four years old and have light hair and gray eyes. With many thanks, I am FRANCES PARKER.

Experience the Best Teacher. It is generally admitted that experience is the best teacher, but should we not make use of the experience of others as well as our own? The experience of a thousand persons is more to be depended upon than that of one individual. Many thousands of persons have used Chamberlain's Cough Remedy for coughs and colds with the best results, which shows it to be a thoroughly reliable preparation for those diseases. Try it. It is prompt and effective and pleasant to take.

CABBAGE PLANTS NOW READY for delivery; plenty of nice ones. J. ARTHUR BUNCE. (11oct24)

## Prominent Physician Discusses Calomel

Dr. William Drury in an article about calomel in the Atlanta Constitution recently said:

"Calomel is a cathartic and a very crude and superfluous one. It produces no special effect upon the liver, or upon the secretion of bile. It has no more influence over biliousness than any other active physic. It is just the ancient standby, cheaper than most other physics and retained in use because old dogs seldom learn new tricks."

As a substitute for a poison like calomel modern physicians prescribe purely vegetable cathartics. Mar-Liver Medicine. For sale by Franklin Drug Co., Statesboro; Farmers' Drug Co., Portals.

Old Soldiers Give Recommendation. Gustav Wangelin, Commander of G. A. R. Post, Pinckneyville, Ill., writes: "I highly recommend Foley Kidney Pills, which I prefer to all others I have used." Foley Kidney Pills give quick relief from backache, rheumatic pains, stiff, swollen joints, languidness, kidney trouble and sleep disturbing bladder ailments. Sold by Bulloch Drug Co.

MOVING SALE. 14-egg incubator and brooder, cost \$25—price \$10.00. 60-egg incubator, cost \$15—price \$5.00. \$550 Player Piano with music \$75.00. \$65 Lefever Hammerless 12-gauge, new \$45.00. Used Haca Hammerless 28-gauge \$25.00. New single iron bed, springs, mattress and pillow \$20.00. W. S. SAFFOLD. (15nov41) Box 3, Brooklet, Ga.

## A RED CROSS CHRISTMAS

Something has happened. A simple and thrilling thing that brings something of real greatness to our lives, humble as they may be.

It is the observance of our first Red Cross Christmas. One cannot have even the thought of its appropriateness and its significance in this world of anguish without having touched the highest thoughts of all the world—that which was given on the birthday we are to celebrate—“Behold, I bring you good tidings of great joy which shall be to all people”; and that which was expressed in the Red Cross treaty made by nations, which established that in warfare the sick and wounded of the enemy should be sacred to the Red Cross.

This is a Christmas when we cannot see our new young soldiers, strong and straight of back, without visioning those others whom war has made helpless. We cannot see the happiness of our children without thinking of those little ones in Europe who have starved to death. Perhaps we cannot see our children's Christmas trees without remembering that in the honor they were a “man of sorrows and acquainted with grief.”

In the Red Cross campaign for 10,000,000 new members during the week preceding Christmas, there is scope for all our tenderest, all our richest imaginings, all our new-born power of simplicity of heart, all power of simplicity of heart, all power of simplicity of heart, all power of simplicity of heart.

The people of the United States are approaching the Christmas holidays under conditions this country never has seen before and, moreover, it is probable that this year we shall not experience our most sorrowful Christmas while this world war is raging.

With the thoughts of the nation dwelling largely upon the infinite suffering abroad, on the certainty that our own flesh and blood will soon be enduring its full share of that suffering, and on the absence from home of hundreds of thousands of dear ones Christmas 1917 will be a war Christmas.

Into this somber outlook the Red Cross is seeking to bring something of cheer. In a campaign lasting from December 16 till Christmas Eve, it will ask for 10,000,000 new members. It will urge these 10,000,000 to become “Red Cross Christmas” recruits, that they may enable the Red Cross to lighten the burden our Army and Navy and those of our allies are called upon to bear.

This co-operation with the Red Cross is real service of which we may be proud. And that this service, when rendered by one, may be known to his neighbors, the Santa Claus fund each old and each new member to display at his home a Red Cross service flag on which each red cross stands for a member.

Let us all help to make this Red Cross Christmas—which is another way of saying, let us make it the happiest Christmas possible with the war clouds hanging low.

## CHRISTMAS GIVING.

As if we needed a reminder that another Christmas is at hand, the Santa Claus letters in today's paper call our minds to the fact.

Their little requests are slight, yet they come from trusting hearts, and will not be turned away. Next to faith in Christ, the Santa Claus faith is the most sublime. In the minds of the little ones, faith in Santa Claus is as strong as faith can be in anything unseen by the eye. Where is he or whence does he come, are the unanswered questions; yet there is never a doubt that Santa Claus is real. As man himself is unable in his wisdom to fathom the mysteries of God, so are the mysteries of Santa Claus hidden to the minds of trusting little ones. “Dear Santa Claus, I love you, for you certainly were good to me last year,” is the outpouring of the heart that trusts and does not seek to understand.

And the appeals will be heard by the spirit of love all over the land, as they have been ever in the past, and answer will come to the simple little appeals. Not, perhaps, the identical things which are asked for; nor are the prayers of trusting men always rewarded with immediate answers, but in some other way that is

better for those who understand imperfectly. The season at hand now is the most solemn in the history of many of us. Intermixed with an inclination to express love as in the past with tokens of value, come the reminders that others of our human family in other lands are dying for the bare necessities of life. Pressed down by hardships which are not of their own making, and from which they are unable to escape, they are appealing, not for Christmas gifts, but for food and raiment that their souls and bodies may be kept together yet a little while longer. These are the appeals that are to be heard from amidst the thunderings of battle in war-ridden Europe. Far away, yet they are almost at our very doors. Our own youth and manhood, some of them now among the very scenes of destruction, may themselves come to know what this awful distress is.

What, then, is our duty at this time of giving? Shall we give extravagantly and needlessly to those who do not need—who need only the love and protection that is their just due every day—or shall we hear the cry from those who are dying for the necessities of life? It is a solemn time, yet the hearts of Christian men and women are answering the appeals. Extravagance, always a crime, is more than ever to be avoided. Common sense indicates that those things which one does not need, could better be done without. While there are so many others in need, the Christian-hearted men and women of America will hear their call, even while they lavish upon their own little ones at home the love which warms their hearts and makes for their happiness and betterment in the days to come.

## A GIGANTIC TASK

A news item states that the business of the Red Cross in the Southern division has grown from nothing to \$2,000,000 in the past few months. And the Southern division is only a branch of the national movement which has grown to such gigantic proportions that a corps of skilled business men and women are required to intelligently direct its affairs.

It need not be wondered at, then, that there are among the higher officials some whose talents command salaries far above those of clerks and bookkeepers. Any man who is capable of successfully directing so great an organization, in preference to compensation in proportion with his business ability. A competent executive of so great an enterprise is cheaper at a moderately high salary than an incompetent executive would be who served free of salary.

A gentleman who, in his own affairs, realizes the force of this truth, was discussing the matter in public a few days ago, and declared his displeasure that the money contributed for Red Cross purposes should be expended in salaries. “I do not intend to ever give them another cent of my money to squander that way,” he concluded. Asked how he would recommend that the business of the Red Cross should be conducted, he answered frantically, “Oh, they can put young women in charge of the office and let them send it direct to the nurses in France. It will do some good that way.” He did not say he was joking, and he was not; he was casting a damper on the work of a great organization which has for its object the saving of the lives of our young men separated from home and loved ones, unable to appeal directly to those who would spend their last farthing to relieve their suffering.

Through lack of concern or seriousness, he was making himself an obstacle to those who are unselfishly serving in the work at home. What had he been reading? Well, now, that is a question easily answered—what could he have read except some subtle German propaganda which has a covert wish to thwart the efforts of our philanthropic people to alleviate suffering? Was he loyal? Was he thoughtful?

An organization whose business affluents mount up into the millions of dollars and whose working force over the wide world number thousands, requires more than a mere stammerer to “send the money direct to the nurses in France.” It requires a head with brains in it and with business experience. Such a head it is not to be had for the salary of a stenographer, and ought not to be expected by intelligent people.

Let us all help to make this Red Cross Christmas—which is another way of saying, let us make it the happiest Christmas possible with the war clouds hanging low.

Let us all help to make this Red Cross Christmas—which is another way of saying, let us make it the happiest Christmas possible with the war clouds hanging low.

Let us all help to make this Red Cross Christmas—which is another way of saying, let us make it the happiest Christmas possible with the war clouds hanging low.

## BOX SUPPER AT THE AGRICULTURAL SCHOOL

A box supper will be given at the First District Agricultural and Mechanical School on Saturday evening, December 15th, from 7 to 10 o'clock. Funds raised will be applied to the improvement of the dining room. The public is cordially invited.

## ALL CITY EMPLOYEES ARE ELECTED FOR NEXT YEAR

At the meeting of the city council Tuesday evening, being the first since the annual election on the first Saturday in December, the council was organized for the coming year and all committees appointed. No changes were made in any departments, the entire police force, the water and light superintendent, the city clerk, etc., being re-elected without opposition. The new member of the council is Mr. S. C. Allen, who succeeds S. E. Krieger, who declined to stand for re-election.

## LARGE TRACT OF LAND BRINGS GOOD PRICES

The auction sale of the lands of the Bulloch Improvement Company, comprising more than three thousand acres in that tract between Brooklet and Areola, which occurred yesterday, was a pronounced success. The land had been divided into twenty-eight tracts of convenient size, and they were sold separately. A number of farmers from other counties attended the sale and were among those who bought.

The sale was conducted by Messrs. Chas. and Henry Conn, of the C. E. Conn Realty Company.

## COUNCIL MAKES NEW LAW CONCERNING FIRE LIMITS

An ordinance recently enacted by the city council, regulating the matter of buildings within a certain limit of this city, appears in this issue. It will be read with interest by those who contemplate building or making repairs to buildings now standing in the area described.

Another ordinance of interest to the general public is one requiring the installation of sewerage in those residences within a certain area. It is not understood exactly what the requirements of this new ordinance are, inasmuch as it is not being published, yet it has been enacted and is to the interest of the citizens of Statesboro to acquaint themselves with its requirements.

## NOTICE

I am representing the McNeil Marble Co., of Marietta, Ga., the largest, best and the only equipped monument plant in the South. They own their own Georgia quarries, and it is reasonable that they can give you goods cheaper than other mills. I will appreciate the patronage of my friends and the public in general.

DONALDSON, Registrar, Ga.  
(5nov5m-c)

## H. S. GEERY

Bank of Statesboro Building, Room 11.  
STATESBORO, GEORGIA

## GIGANTIC COST OF SECRET WAR WORK

President Reports on Expenditures of Emergency Fund.

Washington, Dec. 12.—President Wilson up to Dec. 7 had allotted \$31,698,871 of his war emergency fund of \$100,000,000 provided by Congress at the beginning of war against Germany, and of that sum \$21,651,493 has been disbursed. The House appropriation committee, after receiving this report today, reported favorably a bill making the fund available until the end of the fiscal year, June 30, rather than Dec. 31, next, as previously provided.

The committee on public information, the report shows, got \$1,350,000 of the fund. More than \$2,200,000 was allotted for secret service work and confidential work abroad. More than \$18,400,000 was allotted for repairing the seized German ships.

## EXTRA WORK FOR WOMEN

War conditions try the strength of women. The overworked woman, in home or factory, will find in Foley's a ready relief from kidney trouble, backache, rheumatic pains, stiff joints, swollen ankles and that awful tired feeling. They assist nature in restoring strength and vitality. Sold by Bulloch Drug Co.

“Somewhere in Statesboro” a fire is likely to occur. Are you protected with insurance? CHAS. E. CONE. (5nov17)

## Cataract Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure cataract deafness, and that is by a constitutional remedy. Catarrh of the middle ear is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed, it is swollen, and the mucus which it contains is thick and sticky, and it is this mucus which causes the deafness. It is not a local condition, and therefore cannot be cured by local applications. It is a constitutional condition, and therefore can only be cured by a constitutional remedy. Dr. J. C. Cheney & Co., Toledo, O.

## THE COST OF MOST MATERIALS AND SKILLED LABOR IS RATHER HIGH

NEPSONET WALL BOARD takes the place of wooden trimmings, paneling, wainscoting, or plaster. May be painted any color, so is eminently adapted for use on upper walls and ceilings. Anyone can put it on.

## NEPSONET WALL BOARD

combines economy and attractiveness. Its durability is longer than plaster. It cannot crack or fall.

Have the width or finish for your need.

607 Broad St.  
AUGUSTA, GEORGIA

## WOOD'S Poultry Foods

To get Eggs during the Winter months, when they are worth about twice as much as Eggs in Summer, it is necessary that the hens get the proper food.

Our HOLLYBROOK LAYING FOOD, a specially prepared food containing all the elements necessary for egg production, will give most satisfactory results. This is a mash food, properly balanced and rich in nutritive value.

HOLLYBROOK SCRATCHING FOOD, which is a grain mixture containing a large assortment of cracked and small grains, to be used as an exercise food, scattered in the pens to make the hens work for what they get, and also help to increase egg production.

Write for prices and CATALOG, giving information about our POULTRY FOODS and SUPPLIES. Mailed free on request.

T. W. WOOD & SONS, SEEDSMEN, Richmond, Va.

## ITCH!

Bun's Itch, formerly called Bun's Cure, is especially recommended for itching, burning, and sore skin. It is a powerful antiseptic and soothes the skin. It is sold by all druggists.

## Amusu Theatre

## WEEKLY PROGRAM

PROGRAM FOR WEEK BEGINNING MONDAY, DEC. 17.

## MONDAY

Paramount feature featuring Wallace Reid and Anita King in “THE SQUAW MAN'S SON.”

## TUESDAY

The most wonderful youngsters in the world are now being starred in a picture of their own. They will amuse you, cheer you and give you the entertainment treat of your life. Don't fail to see them. William Fox presents Jane and Katherine Lee in the Baby Grands in “TWO LITTLE IMPS.”

## WEDNESDAY

William A. Brady presents Caryll Blackwell and June Elvidge in “THE PRICE OF PRIDE.” Speed—speed; that is a big characteristic of this picture. Swiftly it moves from thrill to thrill, from surprise to surprise, until the breathless spectator is lifted from his seat by the smashing climax.

## THURSDAY

Paramount feature featuring Fannie Ward in the most unusual and thrilling photo-drama in which she has appeared since “THE CHEAT THE CRYSTAL GAZER.”

## FRIDAY

Paramount feature featuring William Duncan and Carol Holmway in “THE FIGHTING TRAIL,” featuring William Duncan and Carol Holmway.

## SATURDAY

Vitaphone Blue Ribbon feature featuring Anita Stewart in “THE MESSAGE OF THE MOUSE,” also V-L-S-E comedy.

### SHERIFF'S SALE

I will sell at public outcry to the highest bidder for cash, before the court house door in Statesboro, Ga., on the first Tuesday in January, 1918, within the legal hours of sale, the following property levied on under a certain \$1000.00 note issued by the court of Statesboro in favor of Geo. W. Tiedeman against A. F. Morris, levied on as the property of A. F. Morris, to-wit:

One 2 1/2 h. p. gasoline engine, International make; one Enterprise saw-saw mill, one Mosler iron safe, one loose leaf ledger, one cash book, one day book, one filing cabinet, two marble slabs, one meat scale, hooks and saws, one cleaver, one Winchester 35 rifle, one electric cutter, one counter scale, one slicing machine.

This December 6th, 1917.  
W. H. DeLoach Sheriff B. C.

### SHERIFF'S SALE

GEORGIA—Bulloch County. I will sell at public outcry, to the highest bidder for cash, before the court house door in Statesboro, Ga., on the first Tuesday in January, 1918, within the legal hours of sale, the following described property, levied on under a certain \$1000.00 note issued by the court of Statesboro in favor of Schmolzer & Mueller Piano Company against John R. Nunnally, levied on as the property of John R. Nunnally, to-wit:

That certain lot of land, with improvements thereon, located in the north-western portion of the city of Statesboro, Bulloch County, Georgia, measuring 48 by 150 feet in size, being said 12-foot strip of land, east by lot No. 11 on the J. F. Fields plat, recorded in book No. 20, page 365, in the office of the clerk of Bulloch County, Georgia, and bounded north by the north edge of the lot to Moselle (Chance), bounded north by said 12-foot strip of land, east by Peters street, south by lot No. 13, and west by lot No. 10; this being the land whereon John R. Nunnally now resides or did lately reside.

Levy made by J. M. Mitchell, deputy sheriff, and turned over to me for advertisement and sale in terms of the law.

This 6th day of December, 1917.  
W. H. DeLoach Sheriff.

### COMMISSIONER'S SALE

GEORGIA—Bulloch County. Pursuant to an order of Bulloch Superior Court, granted at the December term, 1917, the undersigned commissioner will sell at public auction, for cash, before the court house door in Statesboro, Georgia, within the lawful hours of sale, on the first Tuesday in January, 1918, the following described tract of land, viz:

That certain tract or lot of land lying and being in the 124th G. M. district, Bulloch County, Georgia, known as the Jefferson Bird home place, containing two hundred and eighty (280) acres, more or less, bounded north and east by lands of R. H. Harville, south by lands of R. Simmons and west by lands of John Warnock and K. H. Harville.

Same to be auctioned off first in two parcels of approximately 100 acres each (branch being dividing line) and then to be auctioned off in one body, provided that whichever method of sale shall produce the largest aggregate sum will stand; plats showing the respective acreage of the two parcels to be exhibited at said sale is to be made for the purpose of dividing the proceeds among the several owners and their heirs and their respective interests, in accordance with the order of court.

This December 6th, 1917.  
C. E. CONE,  
J. E. McCRACKEN,  
R. F. DONALDSON,  
Commissioners.

### LIFE IS ONE WEEVIL FIGHT AFTER ANOTHER

Fumigate With Carbon Bisulphide To Kill Corn Weevil

With the coming of frost the fight against the corn weevil ceases until next spring and the fight against another weevil begins in Georgia corn cribs. Last year the corn weevil destroyed approximately 5,000,000 bushels of Georgia grown corn besides much corn brought from other states. With the present high prices it is poor business to raise enough corn to furnish your own farm and "enough to feed the weevils."

### KILL WEEVILS WITH CARBON BISULPHIDE

Weevils may be killed by fumigating with carbon bisulphide, allowing 2 to 3 pounds per 100 cubic feet of crib space. Have corn mature and dry before fumigating and see that crib is sufficiently tight so that enough gas may come in contact with the weevil to kill him.

When the crib has been made as nearly airtight as possible place the carbon bisulphide in large shallow dishes on the pile of corn and leave for two to three days. About four weeks later the fumigation should be repeated to kill the weevils that have developed from eggs. The bisulphide kills the adult weevils, but does not destroy the eggs.

### BE CAREFUL WITH BISULPHIDE

No lights or flames should be carried in the vicinity of the crib while the treatment is going on for the gas of the carbon bisulphide is inflammable. The gas is also poisonous and care should be taken that it is not inhaled.

The material with directions for using may be procured from almost any drug store.

### KEEP ALL YOUR HENS LAYING THIS WINTER

Eat Eggs And Save Bacon For The Boys In France

With the present high price of eggs and the corresponding high price which prevails for chicken feed every hen should be laying this fall and winter. There is a threatened meat shortage, and no better substitute can be found than fresh, wholesome eggs. The farmer cannot afford to keep a hen through the winter and feed her but the eggs she may lay next spring.

### SUPPLY GOOD HOUSING

If the hen is to lay she must be well housed and protected from the cold winter winds and rains. The house must be dry and, while ventilation is necessary, it should be close enough to keep the chickens warm. It is not necessary to build a costly house for them, for some of the boys and girls in the poultry clubs of the Georgia State College of Agriculture have made some very desirable quarters for their flocks from old boxes.

### CHICKENS MUST BE FED LIBERALLY

To keep a flock of hens laying it is absolutely necessary that they be fed liberally during the winter on grains and ground feeds. They should be given all the skim milk or buttermilk they will eat or meat meal may be added to the dry mash. If you can get fresh bones, chop and put these into the place with a hatchet or axe and give this to your chickens every day. Be sure that the bones are sweet and not tainted or spoiled. Feed just a little at first and gradually increase the amount until you are feeding one-half ounce to each hen a day.

It is very desirable to have a green crop for the chickens. This may be either oats, rye or rape and in many cases a combination of all of them gives good results.

### FARMERS WAGE FIGHT AGAINST PARASITES

Will Save Meat By Lessening Losses Due To Parasites

The high price of meat and the threatened meat shortage is causing Georgia farmers to pay more attention to the losses due to animal parasites both external and internal. The mild climatic conditions are favorable for the propagation of these forms of animal life and certain measures are necessary for control and prevention may be instituted without any great cost to the farmer.

It should be the aim of every man with live stock to bring his animals to maturity and full development in the shortest space of time and with the minimum expenditure of feed stuff and labor. He cannot do this if his animals are infested with parasites and their vitality thereby weakened. They will not make as profitable gains as they should.

There is a dearth of veterinarians in the state and often the farmer cannot obtain medical attention for the sick animal. However, he may do a great many things to rid his animal and his farm of the more common parasites. A bulletin recently published by the State College of Agriculture entitled "Common Parasites of Farm Animals" is rich in practical information and may be obtained free from your county agent or by writing right away to the college at Athens.

## Buy Hyacinths To Feed The Soul

If thou of fortune be bereft,  
And in thy store there be but left  
Two loves,—sell one, and with the dole  
Buy hyacinths to feed the soul.

AND THUS THE ANCIENT GREEK BETRAYED HIS GRASP OF THE ETERNAL VERITIES. FOR IT IS FROM THE SOUL THAT TRUE HAPPINESS SPRINGS.

WHY DON'T YOU, IN SELECTING CHRISTMAS GIFTS, BUY HYACINTHS? BY THAT WE MEAN A NEW EDISON, "THE PHONOGRAPH WITH A SOUL." FOR WHEN YOU GIVE THIS WONDERFUL INSTRUMENT YOU ARE ENRICHING A LIFE; YOU ARE IN TRUTH FEEDING A SOUL. IT IS A DEEP AND GENUINE SOURCE OF HAPPINESS. IT IS AS THOUGH YOU HAD PERSONALLY INTRODUCED YOUR FRIEND TO THE WORLD'S MOST EMINENT ARTISTS. IN THIS WONDERFUL INSTRUMENT,

## The NEW EDISON

"The Phonograph with a Soul."

the world's greatest artists have given you their all. You might sit in their own music rooms listening to them and they could give you no more. The famous tone tests in which the living artists sang in direct comparison with their own records have effectually proved that fact. Of the million who have heard the tone tests, not one could tell when the artist stopped and the record began. This applies both to vocal and instrumental music. Come into our store and satisfy yourself regarding this.

## The New Edison as a Family Gift

Have you ever considered the New Edison as a family gift? Nowadays many families are eliminating the smaller individual presents and are pooling their funds for the acquisition of this wonderful instrument. And each member of the group draws bigger dividends in real pleasure than ever he would from an assortment of less worthwhile gifts.

## Brooks Simmons Co.

### For Leave to Sell Lands.

GEORGIA—Bulloch County. Mrs. Ida V. Hendrix and S. S. Sanders, having applied for leave to sell certain lands belonging to the estate of M. W. Hendrix, late of said county, deceased, notice is hereby given that said application will be heard at my office on the first Monday in January, 1918.

This 4th day of December, 1917.  
S. L. MOORE, Ordinary.

### FOR LETTERS OF DISMISSION

GEORGIA—Bulloch County. Paul B. Lewis, executor of the estate of Seaborn Davis, late of said county, deceased, having applied for dismission from said executorship, this is to notify all persons interested that said application will be heard at my office on the first Monday in January, 1918.

This 5th day of December, 1917.  
S. L. MOORE, Ordinary.

### FOR LETTERS OF DISMISSION

GEORGIA—Bulloch County. Whereas, T. J. Denmar, executor of the estate of Mrs. Julia Jones, represents to the court in his petition duly filed and entered on record, that he has fully administered Mrs. Julia Jones' estate, this is therefore to cite all persons concerned, kindred and creditors, to show cause, if any they can, why said executor should not be discharged from his executorship and receive letters of dismission on the first Monday in January, 1918.

This 10th day of December, 1917.  
S. L. MOORE, Ordinary.

### PETITION FOR GUARDIANSHIP

GEORGIA—Bulloch County. To all Whom It May Concern: J. C. Mock having applied for guardianship of the property of G. H. Mock, an insane person now in the Georgia state sanitarium, notice is given that said application will be heard at my office at 10 o'clock a.m. on the first Monday in January, 1918.

This December 3rd, 1917.  
S. L. MOORE, Ordinary.

### FOR A YEAR'S SUPPORT.

GEORGIA—Bulloch County. Mrs. E. A. Hendrix, widow of F. M. Hendrix, deceased, late of said county, having applied for a year's support for herself and three minor children from the estate of her deceased husband, and appraisers having been appointed to set aside a year's support as prayed for, notice is hereby given that the report of said appraisers will be made the judgment of this court on the first Monday in January, 1918, unless cause is shown to the contrary.

This 3rd day of December, 1917.  
S. L. MOORE, Ordinary.

### SALE OF PERSONALTY.

## LOCAL AND PERSONAL

Miss Ruby Parish is visiting in Savannah for several days.

Mr. W. B. Martin, of Dublin, was a visitor to the city yesterday.

Miss Francis Clark has returned from a visit with friends in Savannah.

Mr. Guy Trapani, of Savannah, was a visitor to Statesboro during the week.

Miss Cora Lott has returned to her home in North Carolina after a visit to Misses Anne Johnston and Bess Lee.

Mr. Charlie Donaldson has returned from Brunswick, where he has been employed for the past several months.

Mrs. P. A. Skelton left Monday for Covington, Griffin and Atlanta, where she will spend a couple of weeks with relatives.

Mrs. Tom Outland and sister, Miss Belle, have returned from a visit to Mrs. Outland's mother, Mrs. Rountree, at Swainsboro.

Mr. George Mock, a former citizen of Statesboro, now of St. Louis, Mo., visited his mother, Mrs. G. H. Mock, here during the week.

Lieut. F. B. Groover, who has been at his country home near Ivanhoe for the past month, is a visitor to Statesboro this week, pending orders to report for duty in the army engineering corps.

Dr. Herbert Kennedy, who has recently been commissioned a lieutenant in the army medical corps, left Monday for Ft. Oglethorpe, where he will be stationed for the present. He was accompanied by Mrs. Kennedy, who will remain with him during his stay there.

## WOODCOCK-BRANNEN.

Miss Mamie Woodcock and Mr. Lester E. Brannen were united in marriage yesterday afternoon at 3 o'clock at the home of the bride's parents, Mr. and Mrs. W. R. Woodcock, on South Main street, Elder W. H. Crouse officiating.

Miss Woodcock wore a very becoming suit of navy blue with collar, cuffs, shoes, gloves and hat of champagne to match. She carried a corsage of bridal roses and lilies of the valley. Mr. Brannen wore a suit of navy blue serge. The two attendants were Miss Sallie Woodcock, maid of honor, who wore a dress of blue charmeuse and carried pink carnations, and Mrs. Duranee Kennedy, best man. The house was beautifully decorated in ferns, hollies and cut flowers.

Those invited besides the family were the Khe-Wha-Wa's and a few friends. A reception followed the marriage ceremony and immediately afterward Mr. and Mrs. Brannen left for a ten-days' stay in different parts of Florida.

## A New Story of Maud Muller

Maud Muller on a summer day  
Baked airy cakes in her usual way.  
Which is to say, the trick was done  
With wonder-working RISING SUN.  
The Judge dropped by and stayed for lunch,  
And there received a gentle hunch.  
"For cake like this is more than able,"  
Said he, "to grace a Judge's table."  
And ere the afternoon was spent  
Old Muller gave them his consent.  
And by the neighbors Maud was seen  
Drive off in the Judge's limousine.  
And the neighbors said it beat old Scratch  
How Maud had managed such a match.  
And the Judge's home is famed afar  
'Midst epicures of Bench and Bar.  
The twins are the pride of the neighborhood,  
Due, says the Judge to the Madam's food.  
And Maud will tell you on the quiet  
She feeds them but a simple diet.  
And the Judge remarks (he is good at puns),  
"They're live and thriving RISING SUNS."  
And at the coming County Fair  
The Madam's cakes will be right there.  
Go see and taste and you'll know why  
Miss Muller took the Judge's eye.  
You'll also know the reason that  
The twins are healthy, fair, and fat.  
Who runs may read, who reads should run  
To buy Self-Rising RISING SUN.

UNCLE SAM WILL FEED  
OUR BOYS IN GERMANY

AMERICAN RED CROSS TO DIS-  
TRIBUTE FOOD AND CLOTHING  
TO PRISONERS.

The state department, through the medium of Spain, is at present negotiating with Germany for arrangements whereby prisoners taken by either side will be fairly treated. One of the main things is an arrangement whereby Germany will guarantee that any food or clothing sent to our soldiers and sailors in German prison camps will go to those for whom it is intended.

The agreement will provide against diversion or substitution of food sent. In other words, food sent to John Smith, U. S. A., is not to be diverted to Fritz Schneiderhannes of the German army. Nor is Germany to take this food and substitute an equivalent of something else in its place.

The other allied countries have such arrangements with Germany.

The plan adopted by other countries is to have a blank receipt form attached to each package. This is signed by the recipient and mailed back to the country from which it came.

All distribution for relief of our men will be under the supervision of the American Red Cross, which has already appropriated \$31,212 to buy 75 tons of food for American prisoners in Germany. This food is all to be sent to the American Red Cross warehouse in Bern, Switzerland, which is to be the great supply depot for the victualing and clothing of our imprisoned men.

At present the number of American prisoners in Germany consists of about 100 men and less than 20 soldiers. Twenty-five tons of food for their relief has already been sent to Bern.

Men captured by the central powers are not given what we consider sufficient food and clothing to keep them in good health. This is, of course, largely due to the fact that the Germans have not enough food and clothing even for their own people. In view of this condition, the American Red Cross and our government are jointly preparing to feed all of our men.

A complete scheme for sustaining prisoners is now being worked out by the war and navy departments and the Red Cross. Under the tentative plan, each prisoner is to receive every two weeks three ten-pound packages of food.

Up to now the food has been supplied by the Red Cross, but when the whole scheme is perfected, the government itself will supply the food and the Red Cross will distribute it. The navy department has already shipped 100 outfits of clothing for the interned American seamen in Germany.

VELVET BEANS.

Wanted between now and December 25th, from five to fifty tons Velvet Beans in bulk. If you have any see me.

OFFERS FREE LANDS  
FOR 250,000 SHEEP

LANDOWNERS TO BRING WES-  
TEARN SHEEP RANCHMEN INTO  
SOUTH GEORGIA.

(Morning News.)

It was announced in Savannah yesterday that sufficient free grazing lands for 250,000 sheep had been offered J. A. Delfelder of Riverton, Wyo., as representative of Western sheep men by the Georgia Landowners Association, which represents 2-

000,000 acres of land in the coastal plain section of the state.

It is planned to transfer this great number of sheep to Georgia because the Western ranges are stocked to capacity and the sheep men wish to avoid the necessity of turning off ewes at five years of age.

Mr. Delfelder, who was a guest at a luncheon given yesterday by Savannah's trade bodies, the county commissioners and representatives of the railroad, said that 99 per cent of the pasturage in the state which would sustain live stock nine months in the year, is now going to waste.

Mr. Delfelder spoke in part as follows: "I have made a careful examination of the native grasses grow-

ing in South Georgia and of the sheep on the farms. However, my observations have led me to the conclusion that, while the farmers may make much progress, it will be slow because of the dog menace and because of the lack at the present time of adequate dog laws.

"This problem, however, is insignificant if the landowners here will take up the raising of sheep on a large scale as we do in the West.

"We place 3,000 head of sheep under the management of two men with a sheep wagon. These men are with the sheep night and day and they kill any sheep-eating dogs. This method will enable the land owners of Georgia to get into the sheep business at once and take part in the great work

of producing wool and mutton, which are needed to help win the war.

"The war has made labor a serious problem. It costs us more in the west in labor to produce food for sheep than it does here. We have to raise a maximum of meat producing animals from native pastures, so that our labor may be employed in raising human foods.

"The South has a great advantage and a great opportunity in this respect. With your permanent native grasses here that will maintain sheep for nine months in the year, the labor of a few men will produce a maximum of wool and mutton.

"The sheep men of the West will welcome an opportunity to come to Georgia, where the members of the

Georgia Landowners Association have offered free grazing lands for the sake of helping to increase the nation and wool supply."

240 POUND FIGS

With corn above 50 cts. hogs eat their heads off very quickly. The hog that takes two or three months to get on full feed never brings you a profit.

When you are ready to put your shoats on feed, begin with the B. A. Thomas' Hog Medicine. Use regularly and watch your shoats round out into fat hogs in nine months—hogs going well over 200 pounds and as high as 240 pounds. Figure the average feeding and you will see why the B. A. medicine is a good investment.

Try feeding out your hogs on this plan and if you are not more than pleased, we will refund the cost of the medicine. P. H. Balfour Hdw. Co.

Georgia Landowners Association have offered free grazing lands for the sake of helping to increase the nation and wool supply."

## THE CORRECT TREATMENT FOR COLDS

Colds are contracted when strength is lowered and the inflammation easily develops bronchitis or lung trouble, while grippe and pneumonia frequently follow and any cold should have immediate treatment with

# SCOTT'S EMULSION

The National Strength-Builder

which first builds up the forces by carrying rich nourishment to the blood streams and creates real body warmth. Its cod liver oil is the favorite of physicians for correcting bronchial disorders and chest troubles.

The imported Norwegian cod liver oil always used in Scott's Emulsion is not refined in our own American laboratories which guarantee it free from impurities.

Scott & Bowne, Bloomfield, N. J.

How to Check Croup Quickly  
There is one reliable remedy for croup that every mother should know. Mrs. Sweet Clara, Ante, Va., writes: "I think Foley's Honey and Tar is the best medicine I ever tried. My little son nearly had croup. I gave him one dose and it stopped him coughing in about five minutes. Relieves coughs, colds, croup, whooping cough, croup, croup, croup. Sold by Bulloch Drug Company."

Cut This Out—It Is Worth Money.  
DON'T MISS THIS. Cut out this slip, enclose with 5c to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., writing your name and address clearly. You will receive in return a trial package containing Foley's Honey and Tar Compound for coughs, colds and croup; Foley Pills and Foley Cathartic Tablets. Sold by Bulloch Drug Co.

## ADMINISTRATOR'S SALE.

GEORGIA—Bulloch County.

Agreeably to an order of the court of ordinary of said county, the undersigned administrator of the estate of M. M. Waters, deceased, will sell by public sale, at the court house door in said county on the first Tuesday in January, 1918, within the legal hours of sale, the following described property belonging to said deceased:

All that tract or parcel of land situate, lying and being in the 1847th district G. M., containing 110 acres more or less, bounded as follows: On the north by lands of C. W. Atkins, on the east by lands of Chas. Atkins and O. T. Harper, on the south by lands of A. B. Green, and on the west by Little Lotts creek.

Terms of sale, cash.

This 5th day of December, 1917.

C. E. CONE, Administrator.

NOTICE.

I have accepted the agency for Bulloch county for the Southern States Phosphate & Fertilizer Co., of Augusta, Ga. This is the company so long represented by Mr. W. S. Prentiss, and their goods are well and favorably known to the farmers of this section. I will be glad to serve those of my friends and the public generally, who may be in need of these high-class goods.

W. C. AKINS, Statesboro, Ga. (15nov31-p)

## HOGS TO HELP WIN WAR AGAINST GERMAN ARMY

Atlanta, Ga., Dec. 10.—"Help win the war by raising more hogs." The slogan sounded by the Georgia State department of agriculture has been taken up by newspapers throughout the state, and is receiving the endorsement and practical support of business men, merchants, bankers, farmers' organizations and many other agencies.

Hog raising in Georgia has made greater progress in the past ten years than perhaps any other single industry, and yet even now it is just beginning. The prairie lands of south Georgia, with their boundless sweet potatoes, peanuts, alfalfa, and other feedstuffs, make a grazing ground for hogs that cannot be surpassed anywhere in the country, and the state can always raise an abundant supply of corn to give them a final finishing course to harden the flesh.

The more pork we eat, the more beef we release to feed the armies, and the farmers cannot raise an over-supply.

## Get Your Grocer's Opinion

The Luzianne Guarantee: If, after using the contents of a can, you are not satisfied in every respect, your grocer will refund your money.

He knows coffee—he has mixed them and sold them for years. He knows Luzianne. Ask him what he thinks of it. Ask him what most of his customers think of it. Luzianne will stand or fall by this test. If the report is favorable, take home a can and try it yourself. Make up a pot, according to directions. You have nothing to lose, for the guarantee assures your money back if you don't like Luzianne. Buy a can today. Ask for profit-sharing catalog.

## BUSINESS OF RED CROSS ATTAINED BIG PROPORTIONS

SOUTHERN DIVISION HAS INCREASED FROM NOTHING TO \$2,000,000 PER YEAR.

Atlanta, Dec. 10.—In six short months the business of the Southern Division of the American Red Cross has increased from nothing to \$2,000,000 a year. One of the largest warehouses in the city has been stocked with raw materials which are sent to the front.

## CHAMBERLAIN'S TABLETS.

Chamberlain's Tablets are intended especially for stomach troubles, biliousness and constipation, and have met with much success in the treatment of those diseases. People who have suffered for years with stomach trouble and have been unable to obtain any permanent relief, have been completely cured by the use of these tablets. Chamberlain's Tablets are also of great value for biliousness. Chronic constipation may be permanently cured by taking Chamberlain's Tablets and observing the plain printed directions with each bottle.

## TO THE LOCAL CHAPTER TO BE MANUFACTURED INTO FINISHED PRODUCTS FOR THE SOLDIERS.

A stream of raw material is constantly flowing to the Red Cross chapters, and a stream of finished products is constantly pouring back to Atlanta headquarters for shipment to France.

In addition to this work, which is largely being handled by business men who are giving their time without remuneration, the headquarters of the Southern Division is now making plans for the great Christmas membership drive to be launched on December 18 and closed on December 25. The goal of the campaign for the whole country is 10,000,000 new members by Christmas Day, while the goal of the Southern Division is 500,000. The division embraces the eastern portion of Tennessee, North Carolina, South Carolina, Georgia and Florida.

Plans for the campaign are in the hands of a divisional executive committee of which Dr. Guy E. Shively is chairman, and his associates are prominent business men from the

## various states in the Southern Division.

Many so-called remedies for anemia are only so in name. Their makers are afraid to prove their claims by telling what their medicines contain. The only way to be honest with the people is to let them know what they are paying for. Here is the Vinol formula. When the doctor knows what a medicine contains, it ceases to be a "patent" medicine.

Dr. Cod Liver and Reef Peptides, Iron and Manganese Peptides, Iron and Manganese Chloride, Lime and Soda Phosphates, Calcium.

Any doctor will tell you that the ingredients of Vinol, as named above, will enrich the blood and banish anemia, and create strength. When the blood is pure and rich and red, the body is strong and robust.

You can prove this at our expense because your money will be returned if Vinol does not improve your health. W. H. Ellis Co., Druggists, Statesboro.

## HELP THE KIDNEYS

Statesboro Readers Are Learning The Way.

It's the little kidney ills—the lame, weak or aching back—the unnoticed urinary disorders—that may lead to dropsy and Bright's disease. When the kidneys are weak, help them with Doan's Kidney Pills.

A remedy especially for weak kidneys. Doan's have been used in kidney troubles for 50 years. Endorsed by 50,000 people—endorsed at home.

Proof of merit in a Statesboro citizen's statement. Mrs. A. T. Peak, 62 W. Main St., Statesboro, says: "Sometime ago I was suffering from kidney trouble. I used Doan's Kidney Pills and they rid me of all symptoms of the trouble. I have had no return of the complaint."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the name that's on the wrapper. Foster-McIlwain Co., Mfrs., Buffalo, N. Y.

## SCREVEN COUNTY NEGRO A SECOND MURDERER

(Sylvania Telephone.)

The oldest man in this section, and no doubt in the state, died near Bascom, in this county, on November 14. This was Jim Blackswamp, an old colored man, who, according to the best information obtainable, was 145 years old when he died. Peter Prescott, his son, is now 77 years old, and he had five children older than Peter. Old Jim was in good health and active up to a few months before his death, and was able to walk around the place. He could tell of three wars—the civil war, the war of 1812, and the Revolutionary war. He was a young boy during the Revolution, and remembered very well when the British soldiers were in this section. His son Peter says his father was the oldest man in the world, and it is very likely that he was.

Adopted at a called meeting, Nov. 30th, 1917.

J. W. ROUNTREE, Mayor.

Notice of Application for Sale and Re-Investment.

To Whom It May Concern: Notice is hereby given that the undersigned guardian of Wilson Lewis, a minor, will on January 14th, 1918, at 12 o'clock, noon, apply to Hon. R. N. Hardeman, judge of the superior court of the Middle circuit, at Louisville, Ga., for an order authorizing her to sell at private sale for the purpose of re-investment the three-fourths undivided interest of her said wards in that certain tract of land lying in the 1799th district, Evans county, Georgia, formerly 44th district, Bulloch county, Georgia, containing eighty and one-half (80 1/2) acres, more or less, bounded north by lands of Willie Lewis, east by lands of Ashton Lewis, south by lands of James and Kenial Lewis and west by lands of Ashton Lewis and M. J. Green.

The proceeds are to be re-invested in another certain tract of land lying in the 44th district, Bulloch county, Georgia, containing one hundred and thirty-five (135) acres, more or less, and the reason for making said sale and re-investment is that the place in which said funds are to be re-invested contains a larger number of acres of cleared land and is nearer to church and school, has better buildings, and will produce a better income.

This December 10, 1917.  
Mrs. VIOLA MILTON, Guardian.  
(13dec4-b6b)

RUB-MY-TISM  
Will cure Rheumatism, Neuralgia, Headaches, Cramps, Colds, Sprains, Bruises, Cuts, Burns, Old Sores, Tetanus, Ring-worm, Eczema, etc. Anti-septic Anodyne, used internally or externally. 25c.

THIS WAS NO JOKE  
J. E. Colver, 103 Labor Temple, Los Angeles, Ga., writes: "I have had about 50 years of experience with all sorts and kinds of cathartic remedies—some good and some a joke. When I got wise to Foley's Cathartic Tablets for constipation I got it right. The best ever used." Do not gripe, no unpleasant after effects. Bulloch Drug Company.

ADMINISTRATOR'S SALE.  
GEORGIA—Bulloch County.  
Agreeably to an order of the court of ordinary of Bulloch county granted at the October term, 1917, the undersigned administrator of the estate of Simon Waters, deceased, will sell before the court house door in Statesboro, Ga., on the first Tuesday in January, 1918, within the legal hours of sale, the following property belonging to said estate, to-wit:

All that certain tract or parcel of land situate, lying and being in the 1523rd district, G. M., said county and state, containing 36 acres, more or less, bounded north by lands of D. L. Alderman, east by lands of J. H. McCormick, south by lands of T. R. Bryan and west by dower lands.

Terms of sale one-half cash balance Nov. 1, 1918.  
This 8th day of December, 1917.  
W. C. CROMLEY,  
Adm. estate Simon Waters, decd. (6dec4t)

# The Practical Christmas

Be practical this Christmas—it typifies the spirit of the times. Equip the family for efficient living. Enable its members to do more with less fatigue. Celebrate this Christmas with a new automobile, and let it be a practical automobile. The practical automobile for the times is the car of known value, the car in which there is no hint of experiment.

THE OVERLAND is the practical car. The seats are large, there is plenty of leg room, and it's an easy riding car. The price is low, without sacrificing the quality, and it is easy on tires and sparing of fuel and oil. Let us show you the car and arrange now for Christmas delivery.

# RED CROSS WEEK

## DECEMBER 17TH TO 24TH

Joining the Red Cross during this great drive is a gift to humanity.

The object of this drive is to raise 10,000,000 members, and this is to be our Christmas Gift to "OUR BOYS IN THE TRENCHES."

Bulloch county is to raise 900 members.

### IS YOUR BOY THERE? IS YOUR BOY GOING?

Chaplain Smith, of the army, who spoke in Statesboro on the evening of last Thanksgiving, said:

"In my opinion the first million men sent to France will be shipped back here."

IF THAT BE TRUE, ARE YOU GOING TO LET YOUR BOY OR YOUR NEIGHBOR'S BOY DIE ON THE FIELD OF BATTLE OR IN THE HOSPITAL WITHOUT A WORD FROM A FRIEND—WITHOUT SOME ONE TO SAY, "IS THERE ANYTHING I CAN DO FOR YOU?" OR "CAN I WRITE A LETTER FOR YOU TO YOUR MOTHER, OR TO SOMEONE ELSE BACK HOME?"

The American Red Cross has enlisted, organized and equipped 49 hospital units made of the finest doctors and nurses in the country, competent to care for 25,000 patients at one time; more than 10,000 Red Cross nurses, in addition to 3,000 on active duty.

It has distributed nearly half a million sweaters and other knitted garments for soldiers' use.

It has established rest stations, infirmaries and canteens all along the line of communication of the American army in France to care for those who may drop out through illness.

It is caring for the soldiers' home while he is in the trench. A man will be a better soldier at the front when he knows that his family is being cared for at home.

You owe it to yourself and the boys who are giving their lives for the freedom of your home to join in this great work.

It costs you ONE DOLLAR to join; children, 25 cents. Be ready to enlist when you are called upon during the drive. If no one calls to see you, send your \$1.00, name and address to "Red Cross Chapter, Statesboro, Ga."

As chairman of Bulloch and Candler counties, I ask every man, woman and child in both counties to enlist and let the boys know that we are behind them.

CHARLES FIGUE,  
Chairman Membership Drive,  
Bulloch and Candler Counties.

### Committee for Solicitation for Statesboro:

North Main Street—Miss Lucy Blitch, Miss Mary Beth Smith.  
South Main and College Streets—Miss Annie Groover, Mrs. J. H. Norris.

East Main Street and Savannah Avenue—Miss Bess Lee, Miss Kittie Turner.

Zetterower Avenue and Broad Street—Mrs. Hinton Booth, Mrs. Chas. Pigue.

Brooklet District—J. W. Robertson.  
Hagin District—Fred W. Hodges.  
Briarpatch District—Dr. F. L. Grooms.  
Club-House District—Dr. H. H. Olliff.  
Portal District—J. W. Davis.  
Blitch District—Dr. A. Temples.  
Laston District—Dr. H. A. Alderman.  
Bay District—Dr. D. L. Deal.  
Emit District—Judge J. R. Groover.  
Lockhart District—Judge J. I. Aycock.

### BEGIN WORK NOW FOR SPRING GARDEN DRIVE

Break Ground Well And Apply Stable Manure

Though Georgia farmers had the best gardens this year they have ever had, still they will have even better gardens next year to offset the high prices for food and release as much as possible for export to the allied armies in Europe. Vegetables are both healthful and nutritious and may be used to take the place of meat and of wheat to a large extent. No farmer should be without an abundance of vegetables and fruits next year.

Now is the time to prepare for your spring garden. A great many farmers have winter gardens, but only a small part of the tract is now occupied by growing crops. To the remainder manure should be added and the ground broken deep and left rough. The winter crops will throw the soil particles apart and next spring when the denning time comes the soil will be in excellent physical condition and the crops will get an early start.

If the manure is to be applied later be sure that it is placed under a shed and not exposed to the weather. Keep it dry and in good condition, for the fertilizer bill is a big item these days; just another form of conservation.

### VACCINE TO CONTROL CHOLERA IN CHICKENS

Saved Whole Flock Of State College Of Agriculture

The chickens of the Poultry Department of the State College of Agriculture have been saved by the use of vaccine prepared by the Veterinary Department of the institution in an attack of fowl cholera which threatened to wipe out the entire flock. The vaccine was administered to 1,000 birds and the attack was checked, there being no further deaths after the administration of the vaccine. Students took part in the work.

Fowl cholera is an acute disease and may break out overnight, several fine chickens being found dead in the morning. It attacks both chickens and pigeons, and is caused by a bacterium, *Bacillus Avicentris*.

When the flock becomes infected, remove all the sick birds at once and use the vaccine. It may be injected. Clean the premises thoroughly and burn or plow under deeply all the material gathered. Disinfect the plant by applying a 2 per cent solution of creolin made up with water. It may be applied with brush or with spray pump.

It is best to keep birds that have been admitted to the flock for a week or two before they are put in with the rest of the flock for 4-5 weeks and also birds that have been purchased from other poultry plants.—Dr. W. C. Burkhardt, State College of Agriculture.

### INCREASE PRODUCTION OF LAND BY DRAINING

Removes Injurious Water And Increases Crop Yields.

There is an unprecedented demand for farm products over the entire United States. Food production should be increased wherever possible. Much of the land that has not been cropped because of lack of drainage should be drained and placed in cultivation next year. Hundreds of acres that are now in cultivation are not producing maximum crops because of the compact soil and consequent poor drainage. These lands could all be improved by drainage and crop yields greatly increased.

These times of great demands for farm products at remunerative prices should encourage every farmer to increase the productivity of his land.

**FREE WATER INJURIOUS.**

Proper drainage is the basis of all agricultural improvement, and should be first consideration. Whenever free water is present in the soil, it is injurious to the growth of farm crops. Free water checks the growth of the plant roots and interferes with the supply of air to the roots, and, as a result, plants do not develop normally nor make a maximum yield. Better drainage will increase the depth to which the plants can draw water, and thus increase the yield.

This is the time of year to plan the drainage of the wet fields. Do not wait until the winter rains commence, for then you will have to plan in a hurry. It takes time to construct drains carefully, and they should be installed in time to give benefit to the land before planting for next year's crop. Fall and early winter are the most satisfactory times to do farm drainage.

The Agency Division of the Georgia State College of Agriculture will help the farmers in laying out ditches most economically, and in their proper construction. See your County Agricultural Agent, and get his help in this kind of improvement.—George A. Crabbe, State College of Agriculture.
